

World's first platform for trading tokens  
**EVEN BEFORE** they get on exchanges

## OUR PROBLEM

Investors' money (in Crypto Tokens) is locked due to extensive delays before exchange listing, preventing investors from trading their new ICO tokens.

No reliable safeguards for users' funds because of centralized nature of exchanges and decentralized exchanges are slow, risking execution outcomes.

Many investors, even after being whitelisted for an ICO, don't get a chance to participate in the crowd sale.

## OUR SOLUTION

BDAQ, world's first pre-listing token liquidation, decentralized platform, for ERC20 token buying and selling, anytime.

Smart investors matching and instant messaging between Ethereum addresses.

Master Node – BDAQ ownership and revenue sharing opportunity for crypto investors.

## TOKEN MODEL

- For the first time in the history of crypto investing, investors can sell their tokens immediately after receiving them without having to wait for the tokens to be listed on the Exchanges. This will attract millions of ERC20 token owners to liquidate their token for Ethereum or BDAQ. Liquidation in exchange of BDAQ will give 20% additional value than liquidation for Ethereum. Potential value will grow exponentially mainly because there is limited supply (all unsold tokens will be burnt at the end of the ICO) and BDAQ is the first and only place where instant token liquidity is available for all ICO investors.
- Every transaction on the BDAQ platform will attract a fee paid in Ethereum (or BDAQ) and this will potentially result in rapid growth in the value of BDAQ token. BDAQ Master Node will also present a huge opportunity to Crypto investors and will add to the token value.

## ADVISORS

### SIMON COCKING

World's #1 Blockchain influencer as ranked by ICO Bench, Simon is an advisor working with 100+ successful ICOs to date.

### RICHARD TRUMMER

Blockchain Investor, Cryptocurrency enthusiast, Richard represents a big investors group from Europe and advises on many global Blockchain projects.

### JONATHAN QUIGLEY

An experienced professional with Corporate and NGO experience including World Economic Forum, WWF and many investment and family offices.

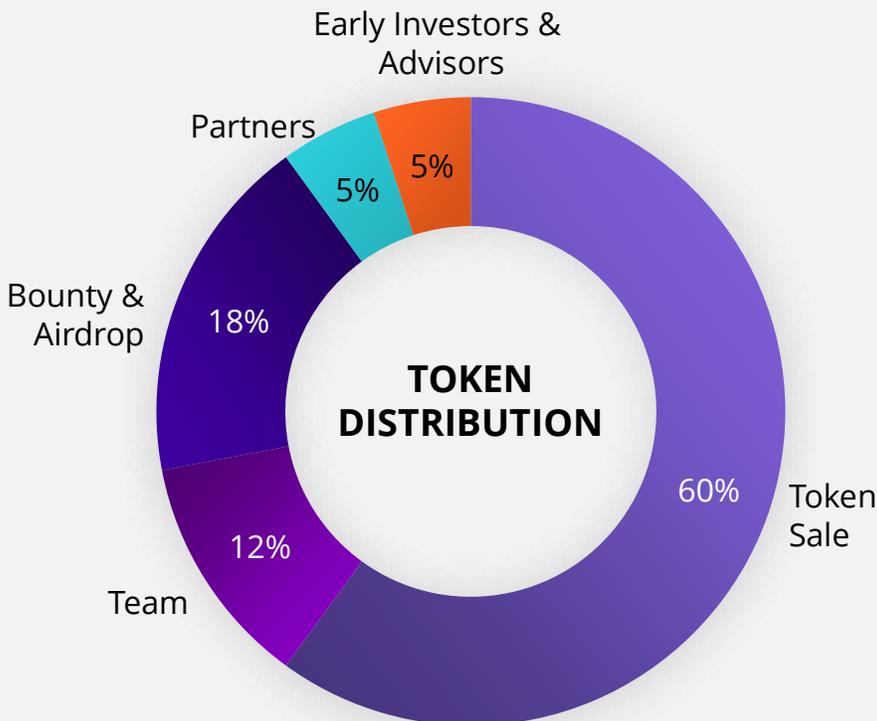

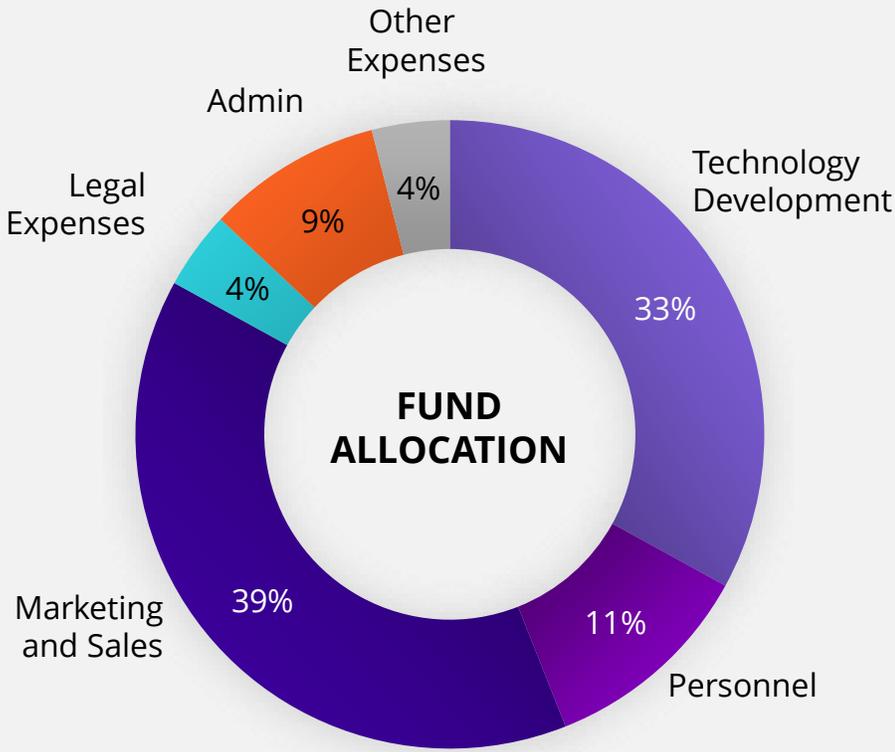

### MANISH KUMAR

Entrepreneur, Venture Capitalist, Angel Investor, Blockchain expert who has implemented decentralized fractional property ownership for the first time.

# MARKET POTENTIAL

Crypto currencies market will be \$1 trillion soon – in the last 14 months \$5 billion invested in ICO tokens were locked-in for upto 90 days or more.

## INSTANT LIQUIDITY

Sell your token as soon as token sale concludes without waiting for the Exchange listing.

## EQUAL OPPORTUNITY

All investors get equal opportunity to buy any ICO token, even if they were denied tokens in the crowd sale.

## ZERO DELAY

Buy and Sell transactions start instantly after token sale.

# THE TEAM

## ATAL MALVIYA

Entrepreneur, Investor and passionate technology enthusiast with interest in Blockchain, Big Data, AI, ML and Value creation.

## LN PARIMI

Serial technology entrepreneur, strategist, business development expert and passionate about fintech and innovative financial products.

## TOBIAS HERREN

Swiss Lawyer with MBA, expert in inter-national law and technology projects in Blockchain and ICO – He has served as an officer in the Swiss Army.

## HARI BHARADWAJ

Entrepreneur, Investor and passionate technologist with expertise in Block-chain, ICOs, Big Data, Oracle and ERP.

## RIZWAN KHAN

Serial Entrepreneur, Technologies and EU GDPR expert, Rizwan has led multi-million pounds businesses in the UK and Europe.

## IHOR PIDRUCHNY

Ihor Pidruchny is the co-founder and CEO of Applicature. Besides managing the company, Ihor coaches blockchain companies.

## IVAN NOVOSIOLOV

Digital marketing experience since 2008. Strategic marketing solutions implemented internationally.

## VIVEK REDDY

Senior management professional with more than a decade of experience in Information Technology and Business Management.

## PAUL ESTRIN

Over 25 years' experience in Quality Assurance, Business Analysis, SDL and other software development processes. Paul is based in Canada.

## SWATI SURAMYA

Business Writer, aficionado of innovative technologies. Writes about innovative technologies including AI, Blockchain, Machine Learning & Regtech.

## ANDREW ZUBKO

Andrew Zubko is an experienced blockchain developer and a technology leader. Having many complex blockchain projects behind him.

## VIVEK HOLKAR

23+ years' experience in leading projects across geographies and technologies. His expertise lies in Block-chain, Smart Contracts, AI and Big Data.

## JEETH REDDY

Blockchain, Ethereum development expert, Cloud and Datacenter Architect, expertise in Tools and Automation and one of the early cloud innovators.

## NAZAR KHRUPALO

Sales and Management experience since 2011. Blockchain Enthusiast.

## KAMLESH ADLAK

Kamlesh is an expert Smart Contracts developer on Ethereum and Hyperledger Fabric with experience in Node.js, Solidity, Javascript, Reactjs & Angular.

## PAVAN SISTA

Business intelligence expert and emerging technology enthusiast. He worked with many global financial organizations including Royal Bank of Scotland.

## SRI HARSHA P

A blockchain enthusiast and Ethereum smart contracts expert. He is a computer science graduate with two research publications in his name.

## ARUN BHALAVI

Distributed Ledger Technology engineer with expertise in Nodejs, Angular, Model, TypeScript, Solidity and Go. He has 4 years of experience and has worked extensively on J2EE.

## SURENDRA S. CHOUHAN

Hyperledger Technical Analyst developing private and public block chain application. Keen interest in ICO & Crypto currency.

## AMIT JAIN

Amit has 6+ year of experience and expertise in Web application development, HTML, CSS, AngularJS, JavaScript, jQuery, Bootstrap
